

For more than two decades The Karters' Choice...

Whether it's Karting, Touring Cars, FIA GT Sportscars or Formula One, Bridgestone dominates the world over.

Bridgestone's success in karting is second to none and covers every level – from the sport's backbone of club level racing, extending right up to the World Championships. Bridgestone are also the chosen tyre for many 'control' classes worldwide, whilst their high performance tyres consistently dominate major meetings the world over. And why do Bridgestone succeed to such a high degree? Because they have the same philosophy as sportspeople such as yourselves...

***The desire to improve, the need to do
their best and the commitment to succeed!***

TYRES

slicks & wets

DPE are the sole Australian importers and distributors of Bridgestone Kart Racing Tyres. We can supply tyres suitable for all racing classes as well as rental & hobby use from our large range in stock.

We can also supply Dunlop slicks and wets, and Vega slicks, which are used in other control classes worldwide, at very competitive prices. Magnum slicks provide a perfect combination of grip and long life for the rental or hobby kart user.
