

# Sniper®

computurn.com.au/sniper

The ultimate kart alignment system is here – the Sniper! Combining the very best in design, manufacturing and laser technology, the Sniper systems make front end and full kart alignment a simple and accurate process. From simple toe-in/toe-out adjustment, to camber and caster changes, and right through to full front-rear chassis alignment, the Sniper is the simplest and most accurate way to ensure your kart is set up to perfection.

## Sniper – Standard •T11•

Suits sprint karts without front brakes. Includes:  
2 x Sniper units  
2 x stub axle spacers

## Sniper – Front Brake Karts •T11B•

Suits karts with front brakes, or significant negative camber. Includes:  
2 x Sniper units  
2 x stub axle spacers

# TOOLS

DPE's huge range of tools, tape, stopwatches and tachometers cover every area of karting. Whether you're changing a tyre, adjusting a carburettor or making rapid repairs between races, DPE have the tools to make your job easy. We are one of the world's largest stockists and manufacturers of quality tools designed and built specifically for kart racing applications.

## Tachometer

### •TAC1•

Economically priced tachometer with maximum RPM recall. Suits either 2 or 4 stroke. Large, easy to read digits and low battery indicator. Size: 81x60x27mm

## Digital Water Temperature Gauge

### •TTGW•

Monitor water temperature for safety and performance. Maximum temp recall., easy to fit, easy to read, on/off switch for extended battery life.

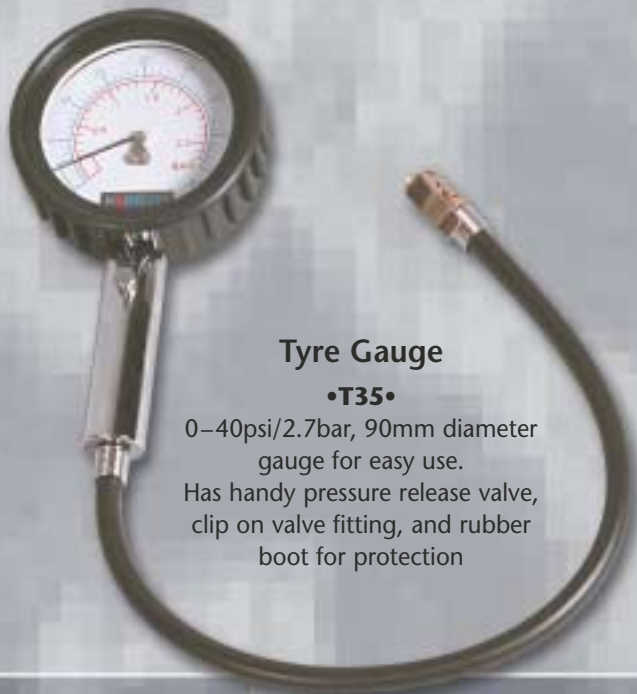

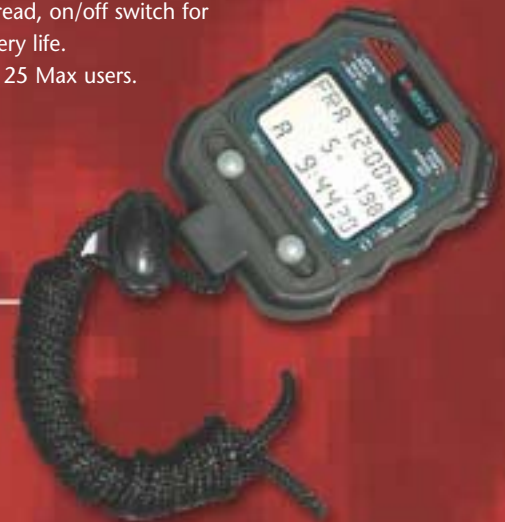

A must for FR125 Max users.

## Kartech Stopwatch

### •TISW•

Features include 60 recallable lap and split memory, lap counter, fastest, slowest and average lap time display, plus much more...

## Tyre Gauge

### •T35•

0-40psi/2.7bar, 90mm diameter gauge for easy use.

Has handy pressure release valve, clip on valve fitting, and rubber boot for protection

## Tyre Gauge

### •T25•

0-40psi/2.7bar, 65mm diameter gauge. Has handy pressure release valve, clip on valve fitting, and rubber boot for protection

### Cloth Race Tape

The racer's instant repair kit! It's amazing the number of uses this product has – don't leave home without it

48mm wide x 25m long

- TAPCB• (Blue) •TAPCBK• (Black) •TAPCR• (Red)

### Insulation Tape

- TAPI•  
Black, 18mm x 20m

### Kartech Adhesive Tape

- TAPKA• (Kartech)  
White adhesive tape with a multitude of uses.  
50mm x 66m

### Carburettor Inlet Lever Height Gauge

- T03L•

Has 0.8, 1.0, 1.2 & 1.4mm settings for quick and easy adjustment

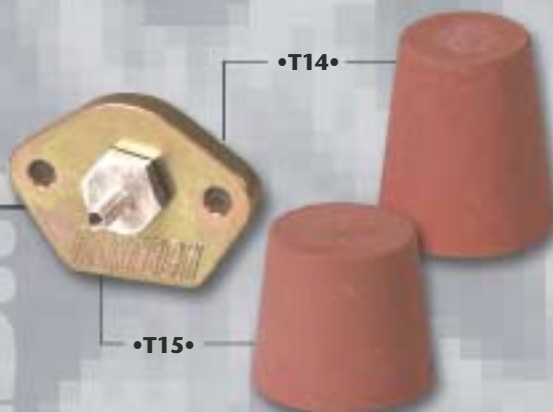

### Engine Pressure Test Kit

- T14• Yamaha engines    •T15• European engines
- An essential tool to check for air leaks – use with •T03A•  
Kit includes sealing plate and bung

### Carburettor Pressure/Blow Off Gauge

- T03A•  
For checking and adjusting needle and seat blow off point, and for ensuring carb holds pressure. Highly accurate

### Circlip Fitting Tool

- T40• 14mm for 100cc engines
- T41• 15mm for Rotax 125 Max engines
- Unique tool for easy fitment of circlips

### Yamaha Ignition/ Rotax 125 Max Clutch Puller

•T17•

Suits both KT100S & KT100J engines,  
as well as Rotax 125 Max clutch

### Sprocket Holding Tool

•T18•

Fits all racing kart drive sprockets

### Sprocket Puller

•T16•

Unique design which fits 9T – 14T drive sprockets

### T-Bar Allen Keys

•T05• 5mm •T06• 6mm •T08• 8mm

•K09K5• combo •T09K8• 8mm shaft, 5 & 6mm handle

Strong and dependable

Plastic coated for easy identification and use

### Chain Breaker

•T02•

Not only can this break a chain, but it also rejoins them!  
Every karter should have one in their toolbox

Also available: •T02P• Replacement bolt/pin

### Chain Breaker - KSI

•T02K•

Also available: •T02PK• Replacement bolt/pin
