

Every kart can only perform at its best when it is properly cleaned and lubricated. DPE supply a range of cleaners and lubricants which are sure to keep any kart performing at its optimum.

# LUBRICANTS & cleaners

## Shell 2T Max

•OMAX• 1L

Box quantity: 6

Recommended for engines with oil-injection and premix systems and specifically for use in Rotax Max engines.

Shell 2T Max is a fully synthetic premixed high performance oil for air and watercooled 2-stroke engines with high specific output. Shell 2T Max provides protection for very compact engines operating under extreme conditions &/or in high thermal stresses.

## Chain Lube – Kartech

•OCK• 500ml squeeze pack

Box quantity: 12

Kartech's special "high cling - low fling" formulation ensures the chain lube stays exactly where it's meant to be – on the chain and not all over your kart! Suitable for both conventional and 'O' ring chains, it comes in an economical and easy to use 500ml squeeze pack. You won't find a better value for money chain lube!

## Chain Lube – Motul

•OCM• 400ml aerosol

Box quantity: 12

Its special formulation penetrates deep into the links, reducing friction and power loss.

It is particularly suited to longer races where sustained chain lubrication is critical, or for those seeking the ultimate chain lube.

## Brake & Carb Cleaner

•OBCC• 300g aerosol

Box quantity: 6

Spray onto brake disc and pads to clean and restore maximum braking power – no scrubbing or wiping is necessary!

Equally suitable for cleaning carburettors and parts, including jets. The aerosol pack allows easy penetration into hard to get at places.

*Our CIK homologated nosecones are made from tough and durable plastic, providing the ultimate in appearance and protection for your valuable kart.*

# NOSECONES

**CIK Nosecone - bare**

- NOCCB• blue
- NOCCBK• black
- NOCCR• red

### Sidepod Bolt Kit

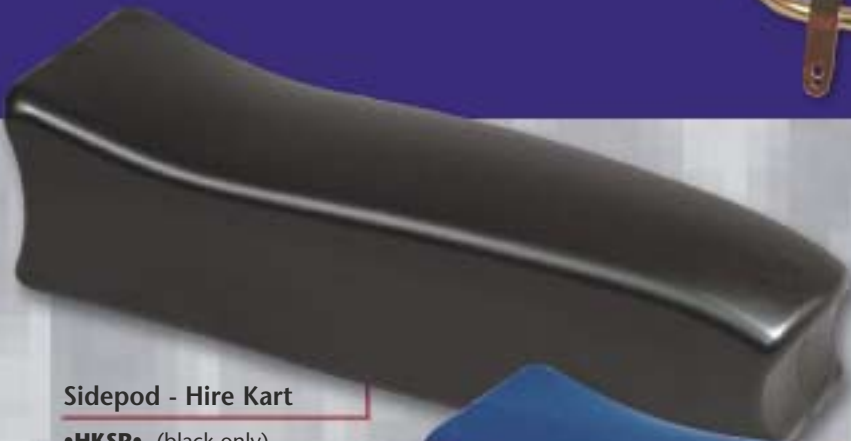

•SI30•  
includes 8 each:  
countersunk capscrews (6x20),  
countersunk washers,  
penny washers & nyloc nuts

### Sidepod Bars - universal

Designed to fit a wide range of karts.  
Available in both 19mm & 20mm diameters.

- SI20• 19mm LH    •SI21• 19mm RH
- SI24• 20mm LH Rotax/Universal
- SI25• 20mm RH Rotax/Universal

### Sidepod - Hire Kart

•HKSP• (black only)  
For the rental kart operator, or  
anyone who wants to cut running  
and repair costs, consider these  
2kg versions of our AERO pods.  
They're not quite indestructible,  
but they're very close!

*Hire Kart Sidepod*  
Length: 665mm Width: 190mm Height: 185mm

### Sidepod - AERO style\*

- SI60• black    •SI61• blue
- SI62• yellow    •SI63• white
- SI64• red

*AERO style Sidepod*  
Length: 665mm  
Height: 185mm  
Weight: 1,150g each

### Sidepod - Rooky/Midget

- SI07• black    •SI086• AX6 blue
- SI09• yellow    •SI10• white
- SI11• red

*Rooky/Midget Sidepod*  
Length: 535mm Height: 180mm Weight: 980g each

### Sidepod - AX6 style\*

- SI50• black    •SI51• blue
- SI52• yellow    •SI53• white
- SI54• red    •SI55• silver

*AX6 style Sidepod*  
Length: 665mm Height: 185mm Weight: 1,100g each

\*AX6 style & AERO sidepods are not CIK approved

*DPE's Aero and F1 range of pods were popular all around the world, and this new range takes up from where they left off. The same unique manufacturing process has been used, so they are able to withstand much more than other brands. The all new range features F1 aerodynamic styling – to stand out from the crowd – and is CIK homologated.*

# SIDEPODS

## Sidepod - CIK

- SI71• blue
- SI72• yellow
- SI73• white
- SI74• red
- SI75• silver

Length: 685mm  
Width: 185mm  
Height: 200mm  
weight: 1,100g each

# SEATS bolts &

*If you want to be in the winner's seat, simply fit one of ours! DPE have a complete range of sizes to suit every kart racer, from Midgets through to Super Heavy drivers. With two different styles of race seats to choose from, as well as 'soft' and 'stiff' versions of the Kartech RT seats, there is sure to be one to fit you perfectly.*

*Our range also includes extra strong, reinforced hire kart seats which will take almost any punishment dished out to them, seat covers and, of course, all the fitting hardware needed to fit the seat to your kart, including our unique 'self-aligning' seat washers which are designed to eliminate any misalignment and 'preload' within the kart from fitment of the seat.*

## Hire Kart Seat
