

Kartech Sprockets

DPE offer our own high quality sprockets, at a very affordable price. Manufactured from an alloy not previously available in Australia, these sprockets will astound you with their quality and, of course, price. Available in sizes 65T – 96T.

•SPK65• = 65T •SPK66• = 66T •SPK96• = 96T
(Digits in code number indicate number of teeth)

DPE is always 'GEARED' to your needs.

So, no matter what sprockets, sprocket hubs or associated equipment you need, we are sure to have it.

Our high quality, yet economical, Kartech range axle sprockets provide the best of both worlds – low price and high durability and life.

DPE's drive sprockets have ground bores, are produced using the latest gear cutting technology, and then shot peened for longer life – you won't buy a better sprocket! On top of that we have a full range of KSI drive sprockets.

And who could forget our striking range of anodised sprocket hubs, or heat treated alloy range – both available in a wide range of sizes.

Sprocket Hubs – Purple Billet Alloy

Manufactured from premium quality alloy, and heat treated
for added strength

Available to suit 40mm & 50mm axles
Locating diameter: 116mm. PCD: 134mm. Keyway: 8mm

•**SPH40DP**• 40mm •**SPH50**• 50mm
