

Wheel – front magnesium
(for use with front hubs)

Wheel – front magnesium

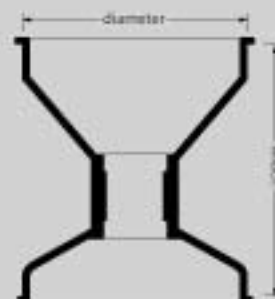

Wheel – rear magnesium

DPE now offer a range of magnesium wheels. These wheels are realistically priced and are quickly gaining popularity, particularly with the performance orientated karter.

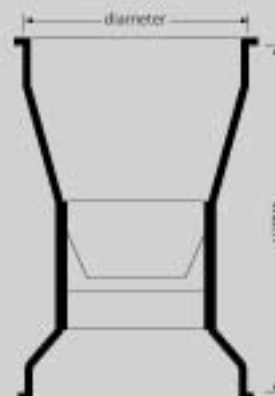

FRONT WHEELS

Code	Diameter	Width	Weight*	Description
•W20•	125mm (5")	110mm	565g	Symmetrical, no offset
•W21•	125mm (5")	120mm	585g	Offset
•W23•	125mm (5")	95mm	550g	Super offset
•W24•	125mm (5")	110mm	590g	Super offset
•W24SX•	125mm (5")	110mm	605g	Extra super offset, popular wet weather wheel
•W25•	125mm (5")	120mm	585g	Super offset
•W26B•	125mm (5")	120mm	600g	'CIK' super offset, including bead retaining bolts
•W27S•	125mm (5")	120mm	680g	<i>Spoked</i> , Silver/Black, super offset
•W27SB•	125mm (5")	120mm	680g	<i>Spoked</i> , High Performance Black, super offset
•W28•	150mm (6")	120mm	810g	Super offset
•W29•	150mm (6")	120mm	835g	Super offset, including bead retaining bolts
•W30•	125mm (5")	140mm	590g	Extra wide, offset
•WMF•	125mm (5")	120mm	555g	Magnesium, super offset
•WMFH•	125mm (5")	120mm	555g	Magnesium, super offset, for use with front hubs
•HKW01•	125mm (5")	120mm	655g	Heavy duty, for hire karts, offset

REAR WHEELS

Code	Diameter	Width	Weight*	Description (** indicates wheels suitable for use as hubbed front wheels)
•W01•	125mm (5")	200mm	720g	Conventional
•W03S•	125mm (5")	200mm	725g	<i>Spoked</i> , Silver/Black
•W03SB•	125mm (5")	200mm	725g	<i>Spoked</i> , High Performance Black
•W04•	125mm (5")	200mm	740g	'CIK' conventional, including bead retaining bolts
•W05•	125mm (5")	120mm	495g	Conventional**
•W05S•	125mm (5")	120mm	480g	<i>Spoked</i> , Silver/Black**
•W06•	125mm (5")	150mm	575g	Conventional
•W06S•	125mm (5")	150mm	565g	<i>Spoked</i> , Silver/Black
•W07•	125mm (5")	175mm	625g	Conventional
•W07S•	125mm (5")	175mm	620g	<i>Spoked</i> , Silver/Black
•W08•	150mm (6")	200mm	900g	Conventional
•W09•	150mm (6")	200mm	905g	Conventional, including bead retaining bolts
•W10•	125mm (5")	220mm	705g	Conventional, extra wide
•W10A•	150mm (6")	120mm	665g	Conventional, also suitable Gearbox front wheel
•WMR180•	125mm (5")	180mm	490g	Magnesium
•WMR210•	125mm (5")	210mm	540g	Magnesium
•HKW02•	125mm (5")	175mm	705g	Heavy duty, for hire karts, conventional

All wheels supplied with valves and/or bearings

*Dry weight of wheel with valves and/or bearings, weights may vary slightly
